THE
AMERICAN JOURNAL
OF
PHYSIOLOGY

VOLUME 129

BALTIMORE, MD.
1940

CONTENTS

No. 1. APRIL, 1940

Body Build and Oxygen Metabolism at Rest and during Exercise. <i>Carl C. Seltzer</i>	1
The Cardiac Vagus Nerve of the Frog as Affected by Sodium N-Hexylethyl Barbituric Acid (Ortal). <i>Charles M. Gruber, Jr. and Charles M. Gruber</i>	14
The Duration of Insulin Action. <i>Paul O. Greeley</i>	17
The Electrical Excitability of Mammalian Striated Muscle. <i>A. Rosenblueth</i> <i>With the assistance of P. O. Therman and K. Lissák</i>	22
Disturbances in Reproductive Functions Caused by Hypothalamic Lesions in Female Guinea Pigs. <i>F. L. Dey, C. Fisher, C. M. Berry and S. W. Ranson</i>	39
Respiratory Adjustments to Oxygen-lack in the Presence of Carbon Dioxide. <i>D. B. Dill and Norman Zamcheck</i>	47
The Modification of the Hemodynamic Effects of Acetylcholine by Ergotamine. <i>Charles R. Linegar</i>	53
Climatic Effects on the Volume and Composition of Blood in Man. <i>H. C. Bazett, F. W. Sunderman, J. Doupe and J. C. Scott</i>	69
Slow Adaptations in the Heat Exchanges of Man to Changed Climatic Conditions. <i>A. C. Burton, J. C. Scott, B. McGlone and H. C. Bazett</i>	84
Climatic Effects on Cardiac Output and the Circulation in Man. <i>J. C. Scott, H. C. Bazett and G. C. Mackie</i>	102
The Heat Regulation of Small Laboratory Animals at Various Environmental Temperatures. <i>L. P. Herrington</i>	123
The Effects of Ascorbic Acid Administration upon Experimental Polycythemia: The Mechanism of Cobalt Polycythemia. <i>John Emerson Davis</i>	140
The Secretion of Ammonia by the Small Intestine of the Dog. <i>Raymond C. Herrin</i>	146
Effect of Adrenalin on Pulmonary Ventilation: Proportionality with Dose. <i>Fred R. Griffith, Jr., F. E. Emery and Julia E. Lockwood</i>	155
A Comparison of Some Respiratory and Circulatory Reactions of Athletes and Non-Athletes. <i>Edward C. Schneider and C. B. Crampton</i>	165
Injury to the Ileal Mucosa by Contact with Distilled Water. <i>Clarence Dennis</i>	171
The Influence of Various Factors upon Intestinal Absorption Involving Osmotic Work in the Unanesthetized Dog. <i>Clarence Dennis and Maurice B. Visscher</i>	176
Intestinal Absorption in the Adrenalectomized Dog. <i>Clarence Dennis and Earl H. Wood</i>	182
Masculinization of Female Rats Treated with Testosterone Propionate. <i>Karl E. Paschkis, Harry Shay, J. Gershon-Cohen and Samuel S. Fels</i>	191
An Analysis of the Effect of Carbon Monoxide on the Respiration of Frog Skeletal Muscle. <i>J. N. Stannard</i>	195
The Effect of Fat and Cholesterol on the Growth of Young Salmon. <i>Earl R. Norris and Lauren R. Donaldson</i>	214
The Histaminase Content of the Tissues of the Rat and the Effect of Histamine Pretreatment. <i>B. Rose, S. Karady and J. S. L. Browne</i>	219

No. 2. MAY, 1940

Radioactive Phosphorus as a Tracer in Anaerobic Muscular Contraction. <i>Jacob Sacks</i>	227
Cyclic Penetrability of Human Cervical Mucus to Spermatozoa in Vitro. <i>J. K. Lamar, L. B. Shettles and Eleanor Delfs</i>	234
The Effect of Renal Insufficiency on the Response of Serum Calcium after Administration of Parathyroid Hormone in the Rat. <i>Alfred Chanutin and Stephan Ludewig</i>	242
The Relation of Plasma Potassium Level to Metabolic Activity. <i>George Brewer</i>	245
The Renal Excretion of Sucrose in Normal Man. Comparison with Inulin. <i>Kurt Steinitz</i>	252
Effects of Adrenalin on Tubal Contractions of the Rabbit in Relation to the Sex Hormones (Study in Vivo by Rubin Method). <i>Arthur M. Davids and Morris B. Bender</i>	259
The Effect of Changes in Muscle Electrolyte on the Response of Skeletal Muscle to Tetanic Stimulation with Particular Reference to Potassium. <i>Herbert C. Miller and Daniel C. Darrow</i>	264
Changes in Cholesterol Content of Hepatic Bile Subjected to Gall-Bladder Activity. <i>Cecilia Riegel, Duncan G. Calder and I. S. Ravdin</i>	271
The Work Performance of Adrenalectomized Rats Maintained on a High Sodium Chloride, Low Potassium Diet. <i>Dwight J. Ingle</i>	278
Body Size as a Factor in Interpreting the Effect of Hormone Injections in Baby Chicks. <i>Igor L. Kosin</i>	283
Some Observations on the Nature of the Respiratory Waves in Arterial Blood Pressure. <i>Robert H. Trimby and Hayden C. Nicholson</i>	289
The Action of Osmotically-Active Substances on the Heart Rate. <i>C. R. Speakman</i>	293
Proceedings	P297

No. 3. JUNE, 1940

The Inhibition of Carbonic Anhydrase and of Gastric Acid Secretion by Thiocyanate. <i>Horace W. Davenport</i>	505
On Spinal Shock. <i>A. Van Harreveld</i>	515
Acclimatization to Carbon Dioxide. A Study of Chemical and Cellular Changes in the Blood. <i>A. T. Miller, Jr.</i>	524
Urine Excretion During Anoxia from Normal and Denervated Kidneys in Dogs With and Without Adrenal Glands. <i>Louis A. Toth</i>	532
The Partition of Nitrogen in the Submaxillary Saliva Evoked by Chorda Tympani Stimulation in the Cat. <i>George W. Starraky</i>	539
The Effect of Combinations of Amniotin and Progesterone on the Uterine Weights of Rats and Mice. <i>Louis J. Zeldis</i>	546
The Effects of Irritants and Thyroxin on Hair Growth in Albino Rats. <i>Earl O. Butcher</i>	553
The Increased Sensitivity of Arterial Muscle in the Prehypertensive Phase of Experimental Renal Hypertension. <i>Eric Ogden, Lewis T. Brown and Ernest W. Page</i>	560
A Study of the Adjustment of Peripheral Vascular Tone to the Requirements of the Regulation of Body Temperature. <i>A. C. Burton and R. M. Taylor</i>	565
The Effect of Depancreatization and Ligation of the Pancreatic Ducts on the Blood and Liver Lipids of Dogs. <i>Saul H. Rubin and Elaine P. Ralli</i>	578
Irreciprocal Innervation of the Heart During Cerebral Anemia. <i>Robert Hodes</i>	585

The Presence of Pyrogen in Urine and Its Separation from Urogastrone. <i>J. S. Gray, E. Wieczorowski, C. U. Culmer and J. L. Adkison</i>	589
Extreme Hypochloremia in Dogs Induced by Nitrate Administration. <i>Edwin P. Hiatt</i>	597
Studies on the Interaction of Hypoglycemia and Anoxia. <i>E. Gellhorn and A. Packer</i>	610
The Influence of Anoxia on the Absorption of Sodium Chloride and Sodium Sulphate from the Small Intestine. <i>Edward J. Van Liere and Paul E. Vaughan</i>	618
The Effects of Thermal Polypnea on the Energy Metabolism, Respiratory Quotient, and Water Loss of Dogs. <i>Walter B. Shelley and Allan Hemingway</i>	623
The Composition of Dog's Milk. <i>H. D. Anderson, B. C. Johnson and A. Arnold</i>	631
The Composition of Mammalian Pericardial and Peritoneal Fluids. Studies of Their Protein and Chloride Contents, and the Passage of Foreign Proteins from the Blood Stream into These Fluids. <i>Frank W. Maurer, Madeleine Field Warren and Cecil K. Drinker</i>	635
The Intake of Water by Frogs During Their Reaction to Pituitrin. <i>Eldon M. Boyd, K. J. Clark and Austin E. Smith</i>	645
Effects of Anesthesia on the Blood Supply to the Hypothalamus. <i>Arthur E. Laidlaw and Margaret A. Kennard</i>	650
Is a Duodenal Hormone Involved in Carbohydrate Metabolism? <i>E. R. Lowe, J. S. Gray and A. C. Ivy</i>	659
The Combined Effects of Heavy Water and Adrenalin on the Rate and Action Current of the Excised Auricles of the Turtle. <i>T. Cunliffe Barnes</i>	664
The Work Done by Muscles in Running. <i>Herbert Elftman</i>	672
Protein Anabolism in the Heart, Kidney and Liver After Consumption of Various Food Proteins. <i>D. W. Yuen, L. J. Poo, W. Lew and T. Addis</i>	685
Effect of Adrenal Cortex Extract on Capillary Permeability. <i>Valy Menkin</i>	691
The Effects of Renin on Renal Blood Flow and Glomerular Filtration. <i>A. C. Corcoran and Irvine H. Page</i>	698
The Absorption of Radio-Opaque Substances from the Experimentally Obstructed Gall Bladder. <i>Benjamin G. P. Shafiroff and J. R. Bierman</i>	703
The Respiratory Effects of Localized Faradic Stimulation of the Medulla Oblongata. <i>John M. Brookhart</i>	709
Augmentation of Thyrotropic Hormone Activity by Adrenaline or Pilocarpine. <i>H. B. Friedgood, S. Bevin and U. U. Uotila</i>	724
The Action of Anesthesia on the Histamine Release in Anaphylactic Shock. <i>Gerhard Katz</i>	735
Total Body Water in the Dog. <i>Elizabeth E. Painter</i>	744
Calcium and Potassium Changes in the Blood and Urine of the Dog During Excitement and After Bilateral Vagal Section. <i>Carl Pfeiffer, Robert Dreisbach, H. G. Glass and Charles C. Roby</i>	756
The Attenuation of Parathyro-Primal Tetany by Previous Vagal Section Above the Diaphragm. <i>Charles C. Roby, Sidney Smith and Carl Pfeiffer</i>	766
Posture and Its Cost. <i>F. A. Hellebrandt, Elizabeth Brogdon and Rubye H. Tepper</i>	773
On the Mode of Action of Insulin. <i>Samuel Soskin and R. Levine</i>	782
Index	787
